

Cribbage Score Sheet

Keep score without a board. First to 121 wins.

Each deal, write pegging, hand, and crib points, then carry the running total.

Cut low card to deal first; the deal alternates, and only the dealer counts a crib. Count each deal in order: non-dealer's hand, dealer's hand, then the crib.

First to reach 121 wins at once. A loser under 91 is skunked; under 61, double skunked.
